CREATING
YOUR FAVOURITE
JARS

We are always on the lookout for innovations. Unusual packaging solutions, new active ingredients. We are working on improving our formulas so that every jar brings pleasure to use. We believe that a product should not only work, but also be pleasing to the eye.

MAIN PRODUCTS

BROW FIX GEL EYEBROW GEL

Brow fix gel eyebrow gel will tame even the most unruly hairs and keep your eyebrows in shape all day long. The slanted cone-shaped eyebrow brush allows you to achieve a laminated eyebrow effect without aggressive procedures or damaging the hair structure. The gel does not leave a white residue and is suitable for daily use.

Main ingredients:

Vitamin B5: Regenerates and moisturises the skin.

Glycerin: Coats and protects the hair.

Polymer: Provides long-lasting and reliable hold.

HAND CREAM HAND CREAM

Hand cream provides intense nourishment and hydration. Its light texture is easy to apply and quickly absorbed without leaving a sticky residue. Its compact size allows you to always keep the cream close at hand.

Main ingredients:

Shea butter: A unique complex of fatty acids gives elasticity, suppleness and preserves the youthfulness of the skin.

Vitamin E: A natural antioxidant that softens and regenerates the skin.

Panthenol: Restores, soothes and heals the skin.

Phytosterols: Strengthen the skin's barrier functions, promote healing and increase elasticity.

MICELLAR WATER MICELLAR WATER

Quickly and effectively cleanses the skin without damaging it, designed to dissolve even stubborn makeup and cleanse the skin of accumulated impurities. During development, we tested more than 20 options for cleansing ingredients and their combinations to achieve the best cleansing results while being as gentle as possible on the skin.

Main ingredients:

Rose water: Restores the lipid barrier and softens the skin.

Panthenol: Restores, soothes and heals the skin.

Golden pine water extract: Cleanses, normalises the skin's microbiome and improves tone.

LIP OIL LIP GLOSS

The texture of oil — the shine of gloss! Daily care and an unrivalled glossy finish in one bottle. The subtle shades do not add pigment, but emphasise the natural colour of your lips. Controllable coverage from light to full: use as a balm, gloss or top coat over lipstick or pencil.

5 fragrances for every mood:

CRYSTAL — melon

APRICOT — apricot

CRYSTAL PINK — sweet candy

PURPLE — grape

CHOCOLATE — lychee

Main ingredients:

Triglycerides: Soften and nourish delicate skin, eliminating feelings of dryness and tightness.

Vitamin E: Provides moisture to the deeper layers of the skin and protects it from environmental influences.

Revitalizing serum with DNA for facial skin. Molecule of Life

Molecule of Life DNA Facial Skin Serum is a true revitalizing elixir for the skin. Polynucleotides repair damaged skin and form a "neoepidermis" that protects against harmful environmental effects, improves skin elasticity and rejuvenates. The serum is instantly absorbed, suitable for dehydrated and damaged skin. Corrects scarring changes, prevents the appearance of keloid scars. Reduces pigmentation, has anti-inflammatory, regenerating, anti-edematous effect. Due to the high concentration of active ingredients serum has a rejuvenating effect.

Tetrapeptide-44, obtained by fermentation of soybeans, preserves cell viability under stressful conditions, restores cell homeostasis after invasive procedures.

Nucleotide fragments of DNA neutralized by sodium ions prevent wrinkles and reduce the appearance of age-related changes, maintain the energy potential of the cell.

Carnosine prevents collagen cross-linking, preserves skin elasticity.

Glucosyl hesperidin increases the flow of plastic substances.

Betaine (the EcoCert category), trehalose and fragmented hyaluronic acid support hydration in the stratum corneum and living layers of the epidermis.

Magnesium carboxy beta-glucan reduces the skin's sensitivity to unwanted environmental influences.

Facial cleansing foam with plant peptides and hyaluronic acid

Cleansing foam has a soft and comfortable texture, suitable for all skin types, including sensitive skin. Deeply cleanses pores, gently removes impurities and keratinized particles, maintains water balance.

Lactic acid normalizes skin pH, active ingredients give skin cells the energy needed to protect against free radicals.

Dicalium glycyrrhizinate in the compound of recipes, has a soothing, revitalizing effect.

Saccharide isomerate (has Ecocert category), hydrolyzed glycozoaminoglycans, hyaluronic acid and xylitol through the formation of filaggrin, aquaporin and ceramides reduces skin sensitivity to undesirable environmental effects, retains water in the stratum corneum.

Glycyrrhizic acid salt reduces itching, irritation, pigmentation.

Rejuvenating peptide cream for facial skin. Anti-age

Anti-aging cream for daily use contains a complex of active components of targeted action, nourishes, moisturizes, improves the condition of ageing facial skin, prolongs the work of natural mechanisms that inhibit the formation of wrinkles. Active ingredients:

SYN-COLL peptide - stimulates the production of collagen type 1, reducing its degradation, makes the skin more elastic, improves skin turgor, smooths the signs of photo-aging, helps to smooth wrinkles.

Peptide SYN AKE - analog of paralyzing venom of the temple viper, relax the mimic muscles of the skin, helps to smooth wrinkles, favorably affects the skin area of the forehead, nasolabial folds, the lateral surfaces of the bridge of the nose, in the corners of the eyes, neck vertical and horizontal orientation. Tripeptide copper GHK-Cu - has a healing and antioxidant effect, stimulates the synthesis of structural proteins, chondroitin, decorin, and glycosaminoglycans, renews and revitalizes the skin, strengthens the dermis and the density of the intercellular matrix, smooths skin irregularities, pigmentation and wrinkles. Ceramides - is a building material of cells, maintains the balance of the microbiome and hydrophobic layer of the skin, which retains moisture, prolonging the elasticity and firmness of the skin, protects against the effects of adverse environmental conditions.

Betaine - regulates the concentration of water molecules and the balance of important salts in the cells and intercellular spaces of the skin, strengthens cell walls, and acts to retain fluid.

Squalane - retains moisture, protects the skin from negative environmental effects, softens, maintains skin elasticity.

Trout homogenate - a unique product of bee decay, has no analogues in nature, which contains more than 20 amino acids, including 9 essential, has antioxidant properties, contains peptides, functionally counteracts the formation of wrinkles, improves skin elasticity and firmness.

Extracts of berries and fruits - are antioxidants, prevent the appearance of signs of aging.

Hydrogel mask for facial skin. "Intensive recovery and detox"

Restoration is achieved thanks to the complex action of natural components: Hyaluronic acid mix* of different molecular weight stimulates the synthesis of its own hyaluronic acid, forms conditions for preserving water balance in the epidermis-dermis system.

Extracts of lentils, apple peel and watermelon** are rich in citrulline, an important amino acid that enhances the functioning of filaggrin, a protein in the stratum corneum of the skin necessary for the formation and maintenance of the natural moisturizing mechanism.

Enzymatic extract of Pseudoalteromonas with amino acid complex***, betaine**** (ingredient has Ecocert/Cosmos category) prevents skin dryness, stimulates collagen synthesis, has wound healing properties, maintains electrolyte balance in cells by retaining water molecules in them.

Niacinamide***** by activating the synthesis of ceramides maintains the structural integrity of the lipid frame, prevents transepidermal water loss, improves skin tone reduces pigmentation. Enhancement of cell detox system, protection of DNA, lipids and proteins from damage caused by oxidative stress, supported by heteropolysaccharides of Tremella fuciformis mushroom and iron hexapeptide*****

Preservation of facial skin contour elasticity by thickening epidermal cells and protecting collagen from destruction is the result of the action of flax seed polycholoides (the ingredient has Ecocert/Cosmos category)*****. Smoothing of skin topography is achieved by the galactamannans of Gleditsia triacanthos seeds***** Improvement of hemo- and lymphokinetics, reduction of pronounced swelling of the skin is the result of the action of the derivative hesperidin***** and a complex of extracts of lemon, prickly needle and goldenseal, rich in rutin and ruscogenin.

The action is proved by the companies: *Principium, Switzerland, **Nikkol, Japan, ***Lipotec, Spain, **** Danisco, Denmark, ***** Lonza, Switzerland, ***** Infinitec, Spain, ***** Lucas Meyer, France, ***** Provital, Spain, ***** Hayashibara, Japan.

Roman LEVSHA (Kulikov)
Creator of the LEVSHAssistant brand
Developer of assistants with magnetic technology
Hairdresser

Roman LEVSHA opened a new way of looking at a hairdresser's workspace and created a complete solution for masters. He combined ergonomics, style, quality and turned it into an efficient and modern workplace.

Before the LEVSHAssistant brand appeared on the market, craftsmen worked with paint carts and bowls, which were most often a bonus to paint and other consumables.

Roman LEVSHA has set a new trend in the beauty industry and invented "assistants" - equipment that by its functionality replaces additional staff in the form of hairdresser's assistants.

Today, almost every craftsman dreams of working with a stylish table and magnetic paint bowls and other gadgets from the LEVSHAssistant brand.

Roman LEVSHA (Kulikov)
– expert in optimizing
the workspace of beauty
industry masters

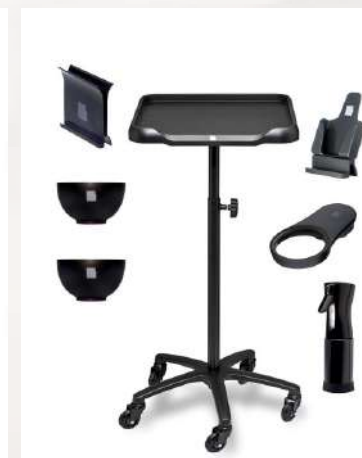

LEVSHAssistant introduced the fashion for assistants and forever changed the workspace of a beauty master. In just three years, the brand has become popular and recognizable all over the world.

Fashion for LEVSHAssistant
Today, craftsmen who are developing, improving their skills and striving for success are working with LEVSHAssistant or dreaming of acquiring them.

A stylish and comfortable workspace is a sign of skill.
There is a real flash mob in social networks: craftsmen who have bought equipment are filming the unpacking and sharing their emotions about the purchase.

In 2020, the top masters received LEVSHAssistant assistants for a test drive. After working with them, they were delighted. Working with assistants has changed the attitude to the workplace: it is possible to create stylish comfort in work. Nothing distracts and irritates anymore, the whole focus of the master's attention is now directed to the creation of beauty, because the work of a beauty master is a real art.

Roman analyzed the world manufacturers of similar equipment and was surprised to learn that nothing even close to this exists in the world. It was decided to produce for the entire world market. In 2018, the development of technical documentation for production and patenting of inventions began, and additional assistants were invented and developed. Today LEVSHAssistant has 12 patents in Russia, 3 patents in Europe and 2 patents in the USA. In 2019, the production of the first batch has been ordered in high-tech factories in China.

Today, the brand holds a leading position in the world of the beauty industry and is intensively expanding its presence in the global market. The demand for assistants is continuously growing.

Every year new handy assistants are developed that bring style and comfort to the work of a beauty master.

UNIDERMIX is a premium Russian brand of natural cosmetics.

We take special care in the development of each product, paying attention not only to the weight of the product, but also to its external packaging, creating unrivaled products that fully meet the requirements of the premium segment.

UNIDERMIX

— ecological cosmetics
with professional action
for the beauty and health
of your skin

Our formulas are based on a fundamental practical knowledge of the skin, both inside and out, and philosophy of care designed to unlock inner resources, natural beauty and perfect uniqueness.

The inclusion of active ingredients with proven effectiveness in products allows **UNIDERMIX** products to solve a wide range of aesthetic skin problems.

WASHING CLAY WITH FRUIT ACIDS

Item No. UN1134, volume: 250 ml

A gentle emulsion with an original active formula designed to remove makeup from the face and eyelids, provides flawless daily cleansing from external impurities, sebum and makeup residue.

The unique formulation includes natural kaolin, collagen and panthenol combined with a complex of lactic, malic, ferulic acids and fruit acids from grapes, peach and passion fruit. Thanks to this product helps to improve skin respiration, leaves the skin of the face, neck and décolleté zone perfectly clean, at the same time contributes to its moisturizing and softening, prevents the appearance of acne and narrows pores.

With regular use of Unidermix Washing Clay, the skin becomes velvety and smooth, its texture and tone are evened out, irritations, inflammations and rashes disappear, the face looks fresh and acquires a matte glow.

NOURISHING NIGHT CREAM WITH BLACK ROSE AND JASMINE EXTRACTS

Item No. UN1136, volume: 50 ml

A multifunctional product with an original rich formula designed to intensively restore and nourish the skin of the face, neck and décolleté zone. The inclusion of collagen, cocoa butter, active plant cells of edelweiss, jasmine and black rose extracts provides a powerful regenerating, revitalizing and smoothing effect. The weightless, delicate, instantly absorbable texture makes the use of the product as comfortable and tactilely very pleasant as possible.

Regular use of this cream increases the tone, elasticity and firmness of the skin, smooths its relief. At the same time, the product regulates the production of sebum and reduces the expression of pores. As a result, the skin becomes smooth and velvety, the face looks fresh, rested and relaxed and acquires a healthy inner glow.

Nourishing night cream is perfectly combined with all products of UNIDERMIX line, it can also be used on a product-by-product basis within the line to obtain additional and total effects of the applied products.

FACE SERUM WITH SANDALWOOD OIL AND VITAMIN COMPLEX

Item No. UN1137, volume: 30 ml

Ultra active serum with a unique formula provides instant and prolonged deep moisturization of the skin, while simultaneously triggering its regeneration processes at the cellular level. In the process of application provides a visible effect of smoothing, softening, reducing inflammation and swelling thanks to the composition based on aloe vera gel with panthenol and plant extracts of milk thistle, soybean germ and wheat. The serum contains sandalwood oil, peptide complex, vitamins A, C and E, which have a pronounced regenerating, rejuvenating and revitalizing effect by stimulating collagen production and optimizing the skin's natural moisturizing factor (NMF).

With regular use UNIDERMIX Face Serum provides a long-term result of improving the condition and appearance of the skin with cumulative effect, increases its firmness, elasticity and vitality, smooths wrinkles, evens tone and texture, refreshes and improves the complexion, giving it a noble inner radiance. It is perfectly combined with all UNIDERMIX products, increasing the effectiveness of their application.

The unique formula includes **panthenol and green tea hydrolate**, which soothe and do not irritate the scalp. **The conditioner** in the formula makes it easier to comb both wet and dry hair.

DETANGLING SPRAY CONDITIONER

The spray conditioner formula gently detangles even the most stubborn curls without weighing them down and adds shine. The safe formula with active ingredients is suitable for all hair types. **Rice protein and argan oil** nourish the hair and protect it from aggressive environmental influences. **A complex of proteins** helps to gently detangle hair.

BATH BOMB «MAGIC GLOW»

The bath bomb with pearlescent shimmer will give both children and adults unforgettable moments. It turns every bath into a bright and fun experience, creating a delicate foam on the surface of the water that does not stain the body or the bath. The bath bomb contains: **Mineral mica** — a completely safe ingredient that gives the water a beautiful pearlescent glow; **Grape seed oil**, which softens running water and prevents skin dryness after bathing; **A hypoallergenic composition** that fills the bathroom with a pleasant aroma.

MAGICAL HAND SOAP FOAM

When you use this coloured foam, its shade changes from soft blue/soft pink to delightful white, creating a magical effect right in your bathroom. The soap effectively cleanses hands of dirt thanks to its strong foaming action, while gently moisturising and softening the skin. YESBABY contains only **mild and natural coconut oil-based surfactants**, as well as **panthenol and aloe vera extract**, which restore and soothe the skin. **Sage hydrolate** has an antimicrobial effect and helps to calm irritation.

**СИЛА
ПРЕДКОВ™**
Sila Predkov

The brand was conceived back in 2019 and began with products for a healthy diet, and in 2020, when a team with experience in eco-cosmetics was assembled and handmade cosmetics based on essential oils began to be produced under the brand, then it was a unique soap-scrub numbering many varieties for different purposes and skin types, and nourishing liquid soap replacing cream.

As a result of consumer interest, and taking into account the gradual departure of imported brands, new successful handmade developments were introduced into the assortment, also using essential oils, since the brand does not work with fragrances and harmful additives.

СИЛА ПРЕДКОВ™
Sila Predkov

As a result, the brand expanded to several categories:

solid and liquid soap, serum for healthy facial skin, shampoos for hair loss, eco-deodorants, phytodistillates, shaving foam, facial foam.

MAIN PRODUCTS

NATURAL FACIAL SERUM 3-IN-1 HEALTHY SKIN

It has the properties to moisturize, nourish, and restore the skin without tightening it. Contains only eco-friendly ingredients and natural essential oils.

— is a Russian brand of decorative cosmetics founded in 2021 by beauty expert Natasha Rakoch.

NATASHA RAKOCH HAS ENORMOUS EXPERIENCE IN CREATING NEW BRANDS AND PRODUCING DECORATIVE COSMETICS.

Many products of local brands created by Natasha today occupy leading positions in sales in Russia.

When developing the RBG concept, Natasha Rakoch set herself an ambitious goal:

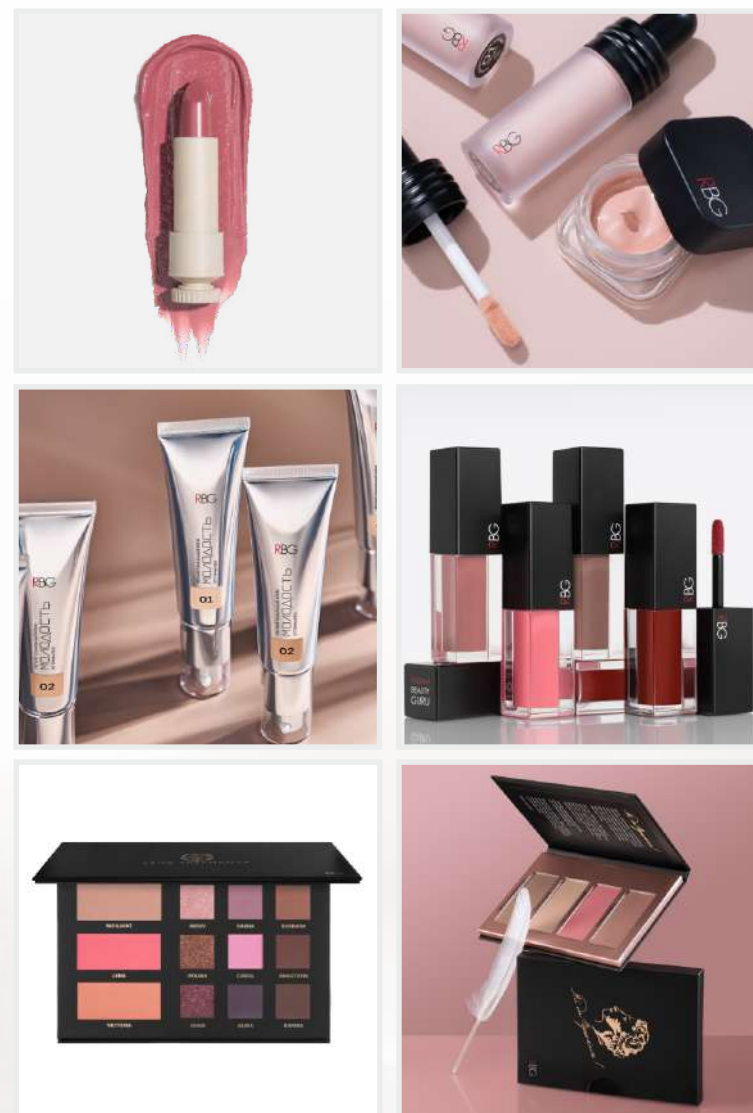

to rethink and show the beauty of the Russian woman in a completely new way.

From the very beginning, it was decided to abandon the idea of disguising the new Russian brand as a Western one. On the contrary, it turned out to be bright, daring, dynamic, modern and deliberately Russian, without relying on the traditional “Khokhloma, matryoshka, balalaika.”

Natasha decided to find the answer to the question - “What is beauty in Russian?” But not in the style of Russian fairy tales, but in a modern, provocative, unexpected way. Embodied in modernity, the brand is filled with cultural and historical references to Russia's past.

The success of RBG is in the philosophy itself. Each brand collection is created by Natasha Rakoch in collaboration with leading Russian beauty experts who have received international recognition.

The Black Moscow collection, Natasha's own line, is the debut product of RBG. The brand's collection also includes: Russian Nude lipstick-balms from Denis Kartashev, Beauty Enhancer tint from Glasha Guryanova, Culture of Radiance concealer from Irina Liventhal, Youth foundation and primer Base from Tima Leo, literary face palette “Ay yes Pushkin!” from Safi Kovalenko and a universal makeup palette from Lena Yasenkova. **And all this is just the beginning!**

— a cosmetics brand for women who love to be different, but always remain themselves.

I'M skincare products combine functional assets with premium scents, eliminating the need for numerous bottles of creams, scrubs, gels and perfumes.

Now focus only on the most important thing - yourself.

I'M

What could be more important than self-love?

“When creating a skincare brand, I wanted it to reflect my personality, but soon I realized that today I can be one thing, and tomorrow I can be another. Realizing that this impermanence is the essence of my nature, I decided that every product released under my name should reveal feminine identity through fragrances, drawing attention to the originality of each of us”

MOISTURIZING PERFUMED SHOWER GEL

A moisturizing, perfumed shower gel with silky foam that turns your daily body care routine into an unforgettable spa experience. While you enjoy the subtle aroma of expensive perfume, the gel gently cleanses and moisturizes the skin. Its delicate texture gives velvety smoothness, restores elasticity and leaves a long-lasting feeling of freshness after a shower. And the seductive, intoxicating trail of aroma remains persistent throughout the day.

MOISTURIZING PERFUMED BODY CREAM BUTTER

Moisturizing perfumed body cream butter will give your skin daily intensive nutrition and hydration. Thanks to its pleasant, weightless texture, the cream is quickly absorbed, leaving it soft and silky. An ideally selected complex of oils actively nourishes, moisturizes and rejuvenates your skin. This bright and sophisticated combination of tenderness and luxury envelops the body and leaves a delicate trail throughout the day.

MOISTURIZING PERFUMED SALT BODY SCRUB

Emphasizes your caring attitude towards yourself. Sea salt delicately exfoliates the skin, promoting deeper penetration of active ingredients. A complex of jojoba, shea and almond oils combined with vitamin E deeply moisturizes, nourishes and restores the skin, making it more even and smooth, while the shimmer in the composition gives the body a slight glow. The main feature of the product is a niche aroma with fresh notes of bergamot, musk, lemon and violet. The woody-floral trail of the premium perfume reveals itself gradually, changing its characteristic sound throughout the day.

MOISTURIZING PERFUMED BODY MILK

With a weightless, melting texture, it instantly hydrates and restores skin. It remains velvety and delightfully soft for a long time. Grape seed oil and natural vitamin E soften, eliminate flaking and slow down the aging process. And the exquisite, niche aroma envelops the body in a delicate trail for the whole day. Use the milk together with I'M moisturizing shower gel for long-lasting comfort and deep skin restoration. Take care of your beauty - give your body luxurious care from I'M.

SOMNIA

BALANCED COSMETICS AND
COZY FRAGRANCES OF THE INTERIOR

SOMNIA

We use natural safe
ingredients

A young progressive Russian brand whose goal is to create not only effective products, but also to give them a mood in the form of aromatics. From sophisticated compositions based on the principles of perfume compositions, to sensual and barely audible on the body.

THE MAIN FEATURE OF THE BRAND

– is transparency, so we have posted the ingredients of the products on the website so that you can be convinced of the naturalness of the cosmetics before use.

Sugar scrub

Satin skin after a normal shower! A complex of oils and natural honey deeply nourishes and moisturizes the skin. The feeling of dryness and tightness does not appear even without the use of additional moisturizers!

Bath bomb

The main purpose of a bath bomb is to reduce water hardness. The essential oils included in the composition act as an inhalation effect that acts through psychosomatics.

Body cream

The rich, nourishing texture of the cream is easily applied to the skin and is instantly absorbed. The cream forms a transparent protective barrier, providing a "second skin" effect. Promotes a noticeable increase in elasticity and smoothness, provides deep hydration, nutrition and a feeling of complete comfort.

Body massage candle

The use of a massage candle is multifaceted. It is suitable for daily skin care. For a sensual massage. And for privacy behind closed bedroom doors. Thanks to its special formula, the oil will never burn or cause discomfort even on the most sensitive areas.

Interior spray

Quickly aromatize bed linen, curtains, upholstery, car interiors and even clothes. The interior spray is economical to use, highly durable and does NOT have an alcohol smell. Does not leave marks on fabric. Persistence of aroma from 4 to 12 hours.

Hand cream

Nourishing formula enriched with shea butter, silk protein, squalane and d-panthenol. Extremely light consistency that is instantly absorbed without leaving a sticky layer on the surface. Softens rough skin, eliminates moisture and nutritional deficiency.

- the largest Russian manufacturer of a full line of products for nail artists

The creation of our company was based on the idea of creating the latest technologies and developments that would make the work of nail service professionals easier.

The first technology developed was the world-famous “Upper Forms”.

It was a breakthrough in the nail industry!

This technology has made it possible not only to improve the quality of the procedure, but also to reduce the time required for it by three times.

We have also created such well-known materials as “Liquid Tips”, “Arched Forms” and “Upper Arched Forms”.

We have 3 of our own brands, more than 150 dealers in 60 regions of the country, our own laboratory and printing house.

We also work as a contract manufacturing, with the ability to launch new brands on a turnkey basis in the shortest possible time. We provide services not only for launching, but also for packaging nail brands for marketplaces, salons, schools, and artists.

Today, the Formula Profi plant's assortment includes more than 3,000 materials for manicure, pedicure, as well as related high-quality products

Our Famous Products:

Eco Bio Gel

Innovative development, based on copying the structural chain of fibrillar protein.

As a result, we created a product that is as gentle as possible on the nail plate, does not shrink, and does not turn yellow. Due to the heavy sawdust, the negative impact on the respiratory organs of those in contact is minimized.

When applied in a thin layer - this material is elastic, in a dense layer - the gel has constructive properties and allows you to strengthen thin, flexible or damaged nail plates.

Creation Gel

Building gel that allows you to model nails of any shape and length without filing or streaking.

Suitable for any type of nail plate and substrate, as it changes its properties depending on the thickness of the applied layer. When applied in a thin layer, the material is elastic; when applied in a dense layer, the rigidity of the structure increases.

Oil 3-in-1

“3-in-1 Oil” contains only natural ingredients. The product contains: beta-carotene, lecithin and squalene, vitamins: A, B1, B2, B5, B6, B9, C, D, E, F, K and PP, tocosterol, amygdalin and mineral salts, unsaturated fatty acids Omega-3, Omega-6 and Omega-9 as well as useful microelements, namely: potassium, calcium, magnesium, zinc, selenium, copper and manganese, iron, chlorine and sulfur, iodine, chromium, fluorine, molybdenum, cobalt, silver, phosphorus and sodium. The oil is used to get rid of peeling and uneven skin. It penetrates well into the upper layers of the dermis, regulating its water-lipid balance, accelerating the process of cell regeneration, and has an anti-inflammatory, regenerating and tonic effect. Slows down the scarring process, which prolongs the look of a fresh manicure and slows down cuticle growth.

Regenerator Oil

A thick product that prevents dryness and splitting of nails, increases and strengthens their elasticity.

The oils and vitamins included in the composition restore the nail plate and stimulate the regeneration of new cells. Recommended for use on brittle, flaking or ridged nails. The oil contains lecithin, collagen, as well as a complex of vitamins and amino acids that promote the growth and restoration of the nail plate.

Gel Base 3-in-1

Revolutionary product for fast and high-quality manicure.

In one bottle there is a gel base, color and top coat, which allows you to reduce the technician's work time by almost 3 times. It is enough to apply 1-2 layers and the coated manicure is ready. At the same time, the material is easy to use, has structural properties, and is self-leveling.
